FALCON TEA FACTORY

## OUR ACHIVEMENTS

## Our Credentials for Quality and Consistency

Quality is our supreme priority. It starts right at the beginning when the tea leaves are harvested, up-until they reach their end product status. Our procedures have been recognized and awarded by international quality management systems. We have obtained ISO 22000, Ethical Tea Partnership and have been awarded the One Star in the Ceylon Tea Quality Certificate Quality Management Systems.

With all these guidelines in our processes, we want to streamline operations; improving quality, enhancing productivity and providing our staff with a better working environment.

## **Take a stroll through our tea journey**

The potential for growing tea in Sri Lanka was first recognized by the British as far back as in 1867. Their expertise and traditions have been carefully preserved by leading tea manufacturers in Sri Lanka.

Falcon Tea Factory was founded in the year 1995, by Mr. Sam Liyanage. His direction has lead the company to becoming one of the pioneers in manufacturing some of Sri Lanka's best tea.

Our passion for excellence has driven us to ensure that we employ state of the art machinery and equipment to guarantee that the tea we produce is outstanding and is in par with international buyer expectations.

Our employees are the power behind the gold and these cutting edge equipment we use ensure that workers who are engaged in creating this great product can work with greater productivity and under very satisfactory working conditions.

Our operations and processes not only ensure security for individuals within the corporation but also for the community as we have from the very beginning acknowledged leaf producers of all scales from mainstream to small home grown farmers and they in return ensure to give us the best of what they produce.
